DEFACHANG

The Silk Road of China presents travelers with a visit to a region vastly different from the rest of the country. Here, between the oasis cities of Dunhuang and the more populated northwest China—beef noodles, fried chicken, and dumplings—travelers explore first the sophisticated city of Dunhuang, an oasis in the desert, and then the less known city of Xian, also a famous oasis in the desert. This oasis city, however, is unique among desert cities, with its own distinct culture and history.
