Islands of the Indian Ocean
Madagascar to Mauritius
With Daniel Rubenstein, Professor of Zoology, Ecology, and Evolutionary Biology
October 11–27, 2020

Led by a team of expert naturalists, enjoy the luxury of having eleven days to explore Madagascar's numerous marine reserves and national parks from the comfort of the all-suite Caledonian Sky. See pristine coral reefs and coastal mangroves, virgin rain forests, towering groves of Baobab trees, and a few of the nearly 100 species of lemurs. Then, leaving the wonders of Madagascar behind, arrive at Réunion Island, a paradisiacal French outpost, to explore its white-sand beaches, spectacular dormant volcanoes, and vibrant Creole character. Disembark on the island of Mauritius, taking in its unique cultural riches and geologic wonders.
