BAJA CALIFORNIA & 
THE SEA OF CORTEZ 
AMONG THE GREAT WHALES 
MARCH 10-17, 2018 | ABOARD NATIONAL GEOGRAPHIC SEA BIRD 
FEATURING D. GRAHAM BURNETT ’93, 
HISTORY OF SCIENCE PROFESSOR AND AUTHOR OF 
THE SOUNDING OF THE WHALE
Discover a miraculous sea, teeming with life, ringed by desert islands alive with wildness. Baja California is like no other place—and much of it accessible only by small ship. Join us and immerse yourself in its splendid solitude.
DEAR PRINCETONIAN,

Have you ever been approached by a curious gray whale, so close you can touch it and see the intelligence in its eyes? Princeton Journeys is pleased to partner with Lindblad Expeditions to offer you that consciousness-expanding, perhaps even life-altering experience on our journey, *Baja California and the Sea of Cortez: Among the Great Whales*, March 10-17, 2018.

Baja California and the Sea of Cortez have often been referred to as the Galápagos of North America, and rightly so. Expect to see several species of whales, playful dolphins, and curious sea lions while on our eight-day expedition in this living sea teeming with wildlife. With its quiet coves, pristine beaches, and sculpted formations of windswept rock, the area offers a wealth of uninhabited islands. You’ll be traveling aboard the *National Geographic Sea Bird*, an expedition ship outfitted with a fleet of landing crafts, sea kayaks, and stand-up paddleboards to allow for up-close encounters with the wilderness and beauty of this magnificent sea.

Discover a side of Baja California that you would otherwise miss in the company of Study Leader D. Graham Burnett ’93, Princeton Professor of the History of Science. During this educational adventure for all ages, Professor Burnett will share his experience studying the waters of Baja as well as how science, politics, and simple human wonder have converged to transform our relationship with the mightiest of marine mammals, the whale.

Please contact the Princeton Journeys team at (609) 258-8686 or journeys@princeton.edu to reserve your space today.

Warm Regards,

Margaret M. Miller ’80
Deputy Vice President for Alumni Affairs, Princeton University

Bridget St. Clair
Assistant Director for Princeton Journeys, Princeton University

D. Graham Burnett ’93 is a professor of the history of science at Princeton University, an editor of *Cabinet* magazine in Brooklyn, and a long-standing contributor and board member at *Lapham’s Quarterly*, based in New York City. He writes widely on the themes of technology, nature, and the environment, and his books on the scientific study of cetaceans—*Trying Leviathan* (Princeton University Press, 2005), and *The Sounding of the Whale* (University of Chicago Press, 2012)—have won several prizes. He has direct experience of the ecology and conservation problems of Baja and its surrounding waters through his service to the nonprofit Vermilion Sea Institute and his years of co-teaching field courses on marine biology in Bahía de los Ángeles, work chronicled in Aaron Hirsh’s *Telling Our Way to the Sea* (FSG, 2014), winner of the National Outdoor Book Award. Burnett received a Guggenheim in 2013-2014 for his current efforts to link artistic practice and scholarly inquiry. He is associated with the performance collective known as ESTAR(SER) under whose auspices he has presented projects at Manifesta 11 (Zurich), The Kochi Biennial (2016), SALT (Istanbul), and elsewhere.

ENCOUNTER FRIENDLY GRAY WHALES UP CLOSE

California gray whales migrate yearly from their feeding grounds in Alaska to the calving lagoons on the west side of the Baja California peninsula. An estimated 20,000 animals make the trip every year, and so they are very much in evidence. Spend two days in these lagoons among the gentle giants and their calves—they are often incredibly social and have been known to even push their newborn calves up to the expedition landing craft. While it is impossible to guarantee encounters, our expedition is expertly designed to maximize opportunities to experience all aspects of Baja’s remarkable nature.

EXPLORE WILD ISLES AND A LIVING SEA

On the other side of the Baja peninsula, in the Sea of Cortez, you’ll discover the uninhabited, pristine desert islands that dot the clear blue sea. Hike a forest of giant cacti, kayak or paddleboard in protected lagoons, snorkel with sea lions, and join a naturalist aboard an expedition landing craft to observe the diverse birdlife along the shores. When you see Baja’s islands with their desert landscape, rugged cliffs, and white-sand beaches reflected in an azure sea, you’ll understand immediately why they have been designated a UNESCO World Heritage site.

Opposite page (clockwise from top): Red-billed tropicbird; gray whale, San Ignacio Lagoon; hiking amongst giant cacti on Santa Catalina Island; breaching humpback whale; expedition landing craft gets up close to playful dolphins.
THE PERFECT PLATFORM TO DISCOVER BAJA

The National Geographic Sea Bird is purpose-built to explore regions like Baja California. A nimble design allows us to venture into shallow lagoons where whales give birth and to islands unmarred by tourist infrastructure. Since this is an expedition, not a cruise, flexibility is a hallmark. The itinerary draws on the extensive experience in the region of the expedition team and captain to maximize viewing opportunities. If a pod of dolphins approaches us, the ship will change course to take advantage of the encounter. You’ll discover that life aboard is warm and welcoming, with everyone participating equally in the adventure. Evening recaps in the lounge are a chance to swap stories of the day’s surprises with family and new friends over hors d’oeuvres and cocktails. The ship’s updated cabins, lounge, bar, and dining room ensure that it is more than comfortable as our base for exploration.

TOOLS & TECHNOLOGY FOR EXPLORATION

EXPEDITION LANDING CRAFT: Experience up-close encounters with whales, dolphins, and sea lions, and land on otherwise inaccessible desert islands.

KAYAKS: Kayak along peaceful coastlines in one of the twelve double or eight single kayaks for a water-level look at stunning scenery.

PADDLEBOARDS: Get up and out on the fleet of stand-up paddleboards for a personal adventure.

SNORKELING GEAR: Don a mask, flippers, and wetsuit, and explore the undersea realm.

UNDERWATER VIDEO CAMERA: View live footage of the vibrant marine life, shot by an undersea specialist, in the comfort of the lounge.

HYDROPHONE: Listen to the awe-inspiring sounds of whales and dolphins in the surrounding waters.

VIDEO MICROSCOPE: Examine the intricacies of seldom-seen marine life.

Opposite page (clockwise from top): Your ship is equipped with kayaks that can be launched at a moment’s notice; kayakers have an up-close experience with wilderness; snorkeling with sea lions; guest exercising on the beach; friendly encounter with a curious gray whale; enjoy opportunities to paddleboard.
ENHANCE YOUR EXPEDITION WITH AN A+ TEAM

Learn, see, and do more by exploring with experts who know the region best. Share the adventure with an expedition leader and four naturalists, including a Lindblad-National Geographic certified photo instructor and an undersea specialist. Additionally, a wellness specialist leads morning stretching and aerobic hikes, and a video chronicler films the story of your adventure.

PHOTOGRAPH IN A LAND WITH PERFECT LIGHT

Make the most of unrivaled photo opportunities of Baja California’s wild islands, whales, dolphins, seabirds, and peerless light with the unique Expedition Photography program. An onboard Lindblad-National Geographic certified photo instructor offers guests of every skill and interest level assistance, instructions, and shooting tips in the field. His or her expertise will inspire you and help you improve your skills—so you can return home with incredible photos documenting your experience of a lifetime.

SATURDAY, MARCH 10: LOS ANGELES/LA PAZ, MEXICO/EMBARK
Upon arrival in La Paz, drive along the Malecón and embark ship. (D)

SUNDAY, MARCH 11: EXPLORING THE SEA OF CORTEZ
Today is a day with the luxury of no specific plan. You may spend time on the lookout for whales, bottlenose...

BAJA CALIFORNIA & THE SEA OF CORTEZ: AMONG THE GREAT WHALES
8 DAYS/7 NIGHTS—ABOARD NATIONAL GEOGRAPHIC SEA BIRD

Seeing California gray whales in their natural habitat is one of the great delights of this voyage. You’ll spend two days in Bahía Magdalena’s nursery lagoons where the whales come to birth and rear their calves. Join experienced naturalists aboard expedition landing craft to come within arm’s length of these magnificent creatures. On the other side of the peninsula, you’ll explore the desert islands of the pristine Sea of Cortez, search for whales and dolphins, plus blue-footed boobies, pelicans, cormorants, and magnificent frigatebirds. You’ll snorkel among sea lions, hike amid barrel cacti and sculpted sand dunes, and kayak and paddleboard in protected coves for a personal perspective. At the end of the day, relax at a beach barbecue and bask in the splendid solitude of Baja.

The gray whales winter in Bahía Magdalena before migrating north to the Bering and Chukchi Seas.
and common dolphins, or explore some of the many uninhabited islands such as Isla San Francisco or Isla San Jose, known for its sweeping beaches and arroyos. Birdlife may be plentiful, and the nutrient-rich sea is home to an overwhelming variety of fish: king angelfish, surgeonfish, butterfly fish, damselfish, and the beautiful parrotfish. (B,L,D)

**MONDAY, MARCH 12: LOS ISLOTES AND ISLA ESPÍRITU SANTO**

At Los Islotes, don flippers, a mask, and snorkel (which are provided), and swim with curious sea lions. Enjoy a leisurely afternoon to swim, kayak, paddleboard, or hike at Espíritu Santo. Brown pelicans, gulls, and boobies are all part of the landscape. Finish the day with a relaxing beach barbecue complete with bonfire and a star-filled sky. (B,L,D)

**TUESDAY, MARCH 13: GORDA BANKS AND LOS CABOS**

Spend the morning at the Gorda Banks seamount or La Fortuna, gathering places for whales, especially humpbacks, dolphins and other sea life. In the afternoon, cruise past Friars Rocks at Land’s End. For those who wish, we will arrange a visit to the historic town center of San José del Cabo. (B,L,D)

**WEDNESDAY, MARCH 14–FRIDAY, MARCH 16: BAHÍA MAGDALENA**

Navigate through an immense system of protected coves and channels, surrounded by a fringe of mangrove channels at one edge of a vast, windswept plain. Each winter, during their long migration, gray whales travel south from their Arctic feeding grounds to breed and raise their calves in these sheltered waters. Observe migrating whales from the ship and up close from expedition landing craft. Watch for magnificent frigatebirds, pelicans, cormorants, terns, great blue herons, ibis, and willets. (B,L,D daily)

**SATURDAY, MARCH 17: SAN CARLOS/DISEMBARK/LA PAZ/HOME**

Disembark after breakfast in San Carlos and drive to the airport in La Paz for flights home. (B)
NATIONAL GEOGRAPHIC SEA BIRD

CAPACITY: Accommodates 62 guests in 31 outside cabins.
REGISTRY: United States. OVERALL LENGTH: 152 feet.
PUBLIC AREAS: The ship features a library; global market; lounge with full-service bar and facilities for films, slide shows, and presentations; observation deck; partially covered sundeck with chairs and tables. The “open bridge” provides guests an opportunity to meet the officers and captain and learn about navigation.
MEALS: Served in single seatings with unassigned tables for an informal atmosphere and easy mingling. Breakfast is a wide selection buffet and lunch is often served family style. Menu emphasizes local flair.
CABINS: All face outside with windows, private facilities, and climate controls.
EXPEDITION EQUIPMENT: Expedition landing craft, kayaks, stand-up paddleboards, snorkeling equipment; bow camera, hydrophone, Splash-Cam, underwater video camera, and video microscope.
SPECIAL FEATURES: Guest Internet access. A video chronicler, Lindblad-National Geographic certified photo instructor, and ship’s doctor are on board.
WELLNESS: The ship is staffed by a wellness specialist and features exercise equipment, LEXspa, and outdoor stretching area.

Clockwise from top: Expedition ship National Geographic Sea Bird can access hard-to-reach locations; twin beds can be pushed together to form a double bed in Category 3 cabins on the Upper Deck; a comfortable Category 2 cabin; the casual dining room accommodates all guests in a single seating.
**CATEGORY 1:**
Main Deck #300-305 — Conveniently positioned between the dining room and lounge, these cabins feature two lower single beds and a large view window.

**CATEGORY 2:**
Bridge Deck #100-104; Upper Deck #200-212, 215 — These well-located cabins include two lower single beds and a window.

**CATEGORY 3:**
Bridge Deck #105, 106; Upper Deck #214, 216, 217, 219 — These cabins feature a seating unit with table and two large view windows. Upper Deck cabins include two lower single beds which can convert to a double bed and a pull-out single bed for a third person; Bridge Deck cabins include two lower single beds only.

**NOTE:** Sole occupancy cabins are available in Categories 1 and 2 only. Third person rates are available in certain categories at one half the double occupancy rate.

**SHARED ACCOMMODATIONS:** Shares can be arranged at the double occupancy rate in Categories 1 and 2 only.

---

**Prices are per person, double occupancy unless indicated as solo.**

BRING THE KIDS: Sharing an expedition with your kids or grandkids is a life-enhancing experience. So, take $500 off the double occupancy price for travelers under 18.

TERMS AND CONDITIONS

COSTS INCLUDE: Accommodations aboard ship; all meals and nonalcoholic beverages aboard ship; shore excursions, sightseeing, and entrance fees; special access permits; transfers to/from airport if traveling on group flights; use of kayaks, paddleboards, and snorkeling gear; taxes, service charges, and gratuities (except to ship’s crew); services of Lindblad Expeditions’ natural history staff and a ship physician.

NOT INCLUDED: Airfare; meals not indicated; passport and visa fees; travel protection plan; items of a personal nature such as alcoholic beverages, voyage DVD, email, and laundry. Gratuities to ship’s crew at your discretion.

AIRFARE: Airfare is an additional cost. Sample airfares are subject to change. Lindblad Expeditions will gladly assist in making your air arrangements for a $50 per person service charge.

RESERVATIONS: To confirm your place, an advance payment of US$750 per person is payable by check, Visa, MasterCard, American Express, or Discover.

FINAL PAYMENT: Due no later than 90 days prior to departure.

INSURANCE: As a service to its travelers, Princeton Journeys automatically provides its travelers coverage under a group medical and evacuation insurance policy. It is highly recommended that you supplement this basic protection with your own additional coverage. Information on additional insurance is available and will be mailed upon receipt of your reservation.

ENTRY AND VISA REQUIREMENTS: Guests are advised to verify travel documents (passport/transit visa/entry visa) for the country through which they are transiting and/or entering. Reliable and most current information regarding international travel can be found by contacting the consulate/embassy of the country(s) you are visiting or transiting through. We will not be responsible if you are denied entry or transit into a country, if you are unable to provide valid documents as per the country’s requirement.

SMOKING POLICY: Allowed only in designated outdoor areas.

RESPONSIBILITY AND OTHER TERMS & CONDITIONS: Certain other provisions concerning, among other things, limitations of Lindblad Maritime Enterprises’ liability for loss of property, injury, illness, or death during the voyage will be provided to all guests on the ship’s ticket sent prior to departure or upon request. By registering for a trip, the guest agrees to all such terms and conditions.

Prices listed in this brochure are as of publication date, and are subject to change. Lindblad Maritime Enterprises reserves the right to impose surcharges based on increases in the actual cost of fuel.

ASSOCIATION DISCLAIMER: Princeton University, through its Office of Alumni Affairs and Princeton Journeys, is pleased to provide this service of facilitating travel opportunities for its Alumni and Friends. The Office of Alumni Affairs strives to work with the best tour operators to make available interesting and enriching travel opportunities for the Princeton family. Please note that the University does not conduct tours, nor does it act as an agent for guests interested in tours. Princeton Journeys acts as a facilitator with tour operators, with whom tour participants make arrangements for completing travel, and is pleased to act as a liaison with tour operators should you have any questions or concerns that may arise before, during, or after your tour. Princeton Journeys encourages you to familiarize yourself thoroughly with the tour operator’s cancellation and refund policies, and also to investigate available services such as trip cancellation insurance. The University is not responsible for changes to trips or travel arrangements or for losses or additional expenses resulting from travel.
EXPEDITION HIGHLIGHTS

» Travel with D. Graham Burnett ’93, History of Science professor and author of The Sounding of the Whale.

» Get an up-close view of gigantic gray whale mothers and their calves in the breeding grounds of Bahía Magdalena.

» Go snorkeling amid sea lions, brilliant blue damselfish, and schools of king angelfish.

» Kayak clear blue waters on the lookout for a variety of bird species including magnificent frigatebirds.

» Explore diverse landscapes, such as sand dunes, forests of cacti, and deserted islands.
