A Mission-Centered Vision for the Campus  

01 **INTRODUCTION**  
   - A Historic and Evolving Campus  
   - The 2026 Plan  
   - The Planning Process  

02 **PRINCIPLES AND KEY ELEMENTS**  
   - Principles  
   - Key Elements  
   - Continued Stewardship and Renewal of the Central Campus  
   - Enabling Expansion of the Undergraduate Student Body  
   - Expanding and Enhancing Engineering and Environmental Studies  
   - Cultivating Community  
   - Creating a Lake Campus  
   - Other Elements  
   - Potential Components in the Planning Framework  

03 **PROJECTS AND INITIATIVES**  
   - Campus-Wide Projects and Initiatives  
     - Washington Road Streetscape Enhancements  
     - Lake Carnegie Landscape  
     - East-West Campus Connector  
     - North-South Campus Connector  
   - Central Campus Projects and Initiatives  
   - Establishing Residential Colleges  
   - Adjacent to Poe/Pardee Fields  
   - Extending the Diagonal Walk  
   - A Frist/Guyot/McCosh Node and the Wilson College, Eno Hall and 1915 Hall Sites  
   - The Expansion of Dillon Gym  
   - A Potential Residential Mixed-Use Corridor  
   - East Campus Projects and Initiatives  
     - Create New Space for Engineering and Environmental Studies  
     - East Campus Entry  
     - A New Campus Setting for William Street/185 Nassau Street
PROJECTS AND INITIATIVES (continued)

Lake Campus Projects and Initiatives 77
  Lake Campus Walk 79
  Tiger Lane Crossing and Transit Hub 81
  Academic Partnerships, Innovation 83
  Space, Administration and Housing
  Athletics 85
  Parking 87
  Campus Meadow 89

Forrestal Campus Projects and Initiatives 91
  Forrestal Campus Landscape and Movement 92
  Cycling Connections to
    Main Campus and Forrestal Village
  The ReCAP Facility and the Gas Dynamics Laboratory 93

04 A SUSTAINABILITY FRAMEWORK 95

  Sustainability Objectives 96
    Embedded Sustainability Strategies 97
    A Shift Toward Broad Impacts Across
    Complex Systems 97
    Aligning Campus Planning, Sustainability
    and Princeton’s Educational Mission 97
    Components of the Sustainability Framework 98
  Impact Priorities 100
    Impact Indicators, Proposed Targets
    and Planning Strategies 101
    Reduced Greenhouse Gas Emissions 102
    Compact Campus Footprint 103
    Transportation 104
    Storm Water Management 105
    Water Conservation 106
    Habitat Integrity 107
    Waste Reduction 108
    Reliability 109

  A Powerful Sense of Identity, An Authentic
  Sense of Place 111
# 05 LAND USE

- **The Organization of the Campus**
  - Page 114
- **Opportunities and Objectives**
  - Strategically Utilize Opportunity Sites on the Existing Campus
  - Identify Opportunity Sites for Growth Beyond the Existing Campus
  - Preserve Capacity for Future Evolution
  - Reinforce Existing Campus Nodes and Create New Ones
  - Pursue Appropriate Mixed-Use Development
  - Princeton Forrestal Campus
  - Components of the Land Use System
    - Academic
    - Residential
    - Athletics
    - Administrative
    - Academic Partnership
    - Operations and Support
    - Utility Infrastructure
  - Page 115

# 06 MOVEMENT

- **Objectives**
  - Page 124
- **Components of the Movement System**
  - Pedestrian Movement
  - Cycling
  - Tiger Transit
  - Regional Transit
  - Vehicular Movement
  - Parking
  - Page 128

# 07 LANDSCAPE

- **Objectives**
  - Sense of Place
  - Support Community and Interaction
  - Enhanced Functionality
  - Stewardship
  - Performative Landscape
  - Components of the Landscape Framework
    - Natural Landscapes
    - Linear Landscapes
    - Campus Open Space
    - Buildings and Landscapes of Historical and Cultural Significance
  - Page 133

# 08 A LOOK AHEAD

- **Acknowledgments**
  - Page 153
A Comprehensive Plan

• A framework to guide campus development over the next 10 years in the context of potential needs and developments over 30 years and beyond.

• Encompasses all University-related lands, including lands south of Lake Carnegie in West Windsor.

• In addition to land use and landscape, addresses issues related to sustainability, movement patterns through and around campus, and infrastructure.

• Identifies opportunities to improve already developed portions of the campus, especially east of Washington Road, and south of Lake Carnegie.

• Decisions about whether, when and how to proceed with specific projects depend on capital planning and campaign planning.
Proposes locations for priority projects identified in the 2016 strategic planning framework

- A new residential college or colleges to permit expansion of the undergraduate student body by 10 percent.

- New and improved facilities to support teaching and research in engineering and environmental studies.

- Space to accommodate academic partnerships with corporate, government and nonprofit sectors in an expanded innovation ecosystem.
A Look Ahead

Just as the Princeton campus will continue to evolve as projects are approved and new opportunities and priorities emerge, so too is this planning framework intended to evolve over time and with experience. As a framework that looks ahead over both ten-year and thirty-year horizons, it leaves the door open to multiple possible directions for the future, while providing enough guidance to inform decision-making over the nearer term.

By integrating planning for development with planning related to land use, sustainability, infrastructure, transportation and landscape, it allows the University to pursue multiple objectives in a comprehensive way. The framework is backed up by the in-depth work of experts in many fields, and by analyses and assessments that provide detailed guidance to the University planners, senior officials and project managers who will have responsibility for overseeing the development of the campus not only over the next ten to thirty years, but beyond.

When alumni return to campus, as many do each year, they frequently comment both on how much the campus has changed, and how much it hasn’t. There is something about the look and feel of the campus that is immutable, powerful, and both comforting and uplifting, and for more than 260 years it has managed to retain its core characteristics while becoming much larger, much more multi-faceted, and much more diverse.

This framework envisions a campus with an expanded student body and one or more new residential colleges; substantially expanded and improved space for engineering and environmental studies; a thoroughly reimagined East Campus; a lively and attractive Lake Campus fully integrated into the rest of the University; a geography in which Lake Carnegie has moved from the periphery to the center of campus; enhanced achievements in multiple forms of sustainability; a significant shift from single occupancy vehicles to other modes of transit, including walking, cycling, shuttling and mass transit; and new academic partnerships in an innovation ecosystem that supports the mission of the University and increases its capacity to have a positive impact on the world.

The purpose of the planning framework is to help the University make wise and informed decisions as it pursues these goals and others that undoubtedly will emerge over time, while sustaining the distinctive sense of place that has long characterized the campus lands that have been entrusted to its care.
Come Back to Campus

Alumni Day
February 24, 2018

Honor and Celebrate the achievements of alumni, faculty and students.
