

PRINCETON JOURNEYS

Total Solar Eclipse in Indonesia: Bali, Komodo, and the Lesser Sundas July 16-27, 2028

Itinerary

B = Breakfast, L = Lunch, D = Dinner, R = Reception

Sunday, July 16 – Monday, July 17, 2028 | Depart U.S.

Depart the United States on independent overnight flights to Indonesia crossing the International Date Line enroute.

Tuesday, July 18, 2028 | Bali, Indonesia

Arrive in Bali, Indonesia's fabled "Island of the Gods," and transfer to the 5-star Hyatt Regency Bali for a one-night stay. Set along Sanur's beachfront amid tropical gardens, the hotel offers a gracious introduction to the island. This evening, gather for a welcome reception and dinner with fellow travelers and program staff.

Hyatt Regency Bali (R, D)

Wednesday, July 19, 2028 | Bali / Embark *Island Sky*

Travel inland for an introduction to Bali's artistic heritage and rural beauty. Visit artisan villages known for classical painting and traditional weaving, then continue to Sidemen Valley, one of Bali's most beautiful rice-growing regions, for a guided walk among terraced fields, village paths, and volcanic views. This afternoon, embark the *Island Sky*, settle into your cabin, and gather on deck as the ship sets sail.

Island Sky (B, L, D)

Thursday, July 20, 2028 | Southwest Lombok & the Secret Gilis

Arrive off the quieter southwest coast of Lombok and go ashore by Zodiac for an introduction to Sasal coastal culture, known for weaving traditions, pearl farming, and rural landscapes. After lunch, explore the nearby "Secret Gilis," where clear waters, quiet beaches, and coral reefs offer opportunities for snorkeling, swimming, or beach time. This evening, sail toward the eclipse site as the astronomy program begins on board.

Island Sky (B, L, D)

Friday, July 21, 2028 | At Sea / Eclipse Approach

Spend a purposeful day at sea as *Island Sky* approaches the remote eclipse-viewing position. Enjoy expert lecturers to prepare you for totality, with guidance on eclipse science, safe viewing, photography, and what to watch for as the light changes. By evening, the ship reaches the path of totality in the remote waters south of Indonesia. After dinner, gather on deck for pre-eclipse stargazing beneath dark tropical skies.

Island Sky (B, L, D)

Saturday, July 22, 2028 | Eclipse Day

Today is the defining moment of the expedition: The total solar eclipse of July 22, 2028. From the ship's open decks, experience approximately five minutes of totality, with unobstructed horizons and freedom from land-based crowds. As the Moon covers the Sun, the corona appears and the surrounding sea and sky are transformed in a rare moment of daytime darkness. Afterward, celebrate on board with time for reflection, photography sharing, and an expert-led eclipse recap.

Island Sky (B, L, D)

Sunday, July 23, 2028 | Sumba Island

Arrive off Sumba, one of Indonesia's most culturally distinctive islands. Using the ship's expedition capabilities, go ashore where conditions allow a locally guided visit to learn about high-roofed clan houses, megalithic tombs, ikat textiles, and enduring ancestral

customs. Return to the ship for an evening lecture and stargazing.

Island Sky (B, L, D)

Monday, July 24, 2028 | Flores Island

Come ashore on Flores, an island of volcanic landscapes, coastal communities, lively markets, and layered cultural traditions. Guests may choose a longer overland excursion to Kelimutu National Park, where three famed crater lakes are known for their striking colors and dramatic highland setting. A second option remains closer to Ende for a less strenuous exploration of local markets, ikat weaving, coastal village life, and sites connected to the years Sukarno, Indonesia's independence leader and first president, spent in exile. This evening, continue west toward Komodo National Park.

Island Sky (B, L, D)

Tuesday, July 25, 2028 | Komodo National Park

Spend the day in the extraordinary island wilderness of UNESCO-listed Komodo National Park. Join ranger-led walks in search of Komodo dragons, the world's largest lizards, while learning about the park's wildlife, rugged ecosystems, and conservation efforts. Later, the ship repositions within the park for snorkelling, swimming, or Zodiac cruising at reef sites and shorelines to experience coral gardens, pristine beaches and dramatic views of the park's volcanic hills.

Island Sky (B, L, D)

Wednesday, July 26, 2028 | Satonda Island & Moyo Island

Zodiac ashore this morning at Satonda Island, an extinct volcanic cone, and walk to its saltwater crater lake just inland from the beach. This afternoon, continue to Moyo Island for forest trails, waterfalls, secluded beaches, and swimming or snorkeling, conditions permitting. This evening, gather for the Captain's farewell reception and dinner, celebrating a voyage that paired a total solar eclipse with Indonesia's remote island beauty.

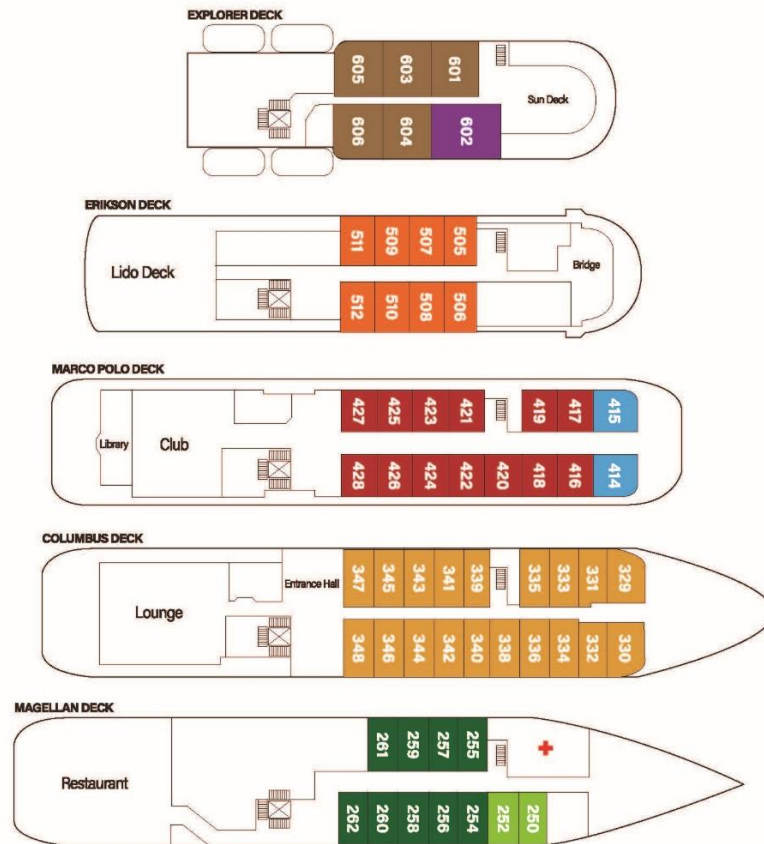

Island Sky (B, L, D)

Thursday, July 27, 2028 | Benoa, Bali

Arrive back in Benoa this morning and disembark after breakfast with transfers to Bali International Airport or continue on the post-trip Bali extension.

WHAT TO EXPECT

July is the middle of the dry season in Indonesia, bringing warm, sunny days (high temperatures average in the mid to upper 80s) and lower humidity, with infrequent rain showers. We consider this to be a moderately strenuous program, at times physically demanding and busy, with considerable walking at some destinations. Daily activities can involve up to two miles of walking, unaided, over varied terrain (e.g., uneven beaches, steep and sandy or muddy trails, dirt streets and paths in small villages), possibly in direct sun, high heat, humidity and rainy or dusty conditions. You may be required to remove your shoes while visiting temples and other sites. You will need to climb into and out of Zodiacs for most excursions (there will be crew members on hand to assist). Please note that some locations may involve wet landings. There will be several opportunities to swim and snorkel in the ocean. All participants who plan to swim or snorkel should be comfortable swimming unassisted in open water. No prior snorkeling experience is necessary. Participants must be physically fit, active and in good health. Emergency medical

evacuation coverage is strongly recommended due to the remote areas that you will be visiting.

Please note that weather and cloud conditions for viewing the eclipse can change and are not guaranteed.

TRAVEL INSURANCE

Travel insurance for trip cancellation and interruption, medical problems, baggage loss and delay, etc., is highly recommended. Trip cancellation policies that apply to this expedition are included in this brochure. Information about travel insurance will be sent to confirmed participants.

GROUP SIZE

This program welcomes up to 92 participants, including travelers from Princeton Journeys, Harvard Alumni Travels, and Carleton College.

A NOTE ABOUT RATES

Tour rates are based upon current fuel prices, currency values, taxes, tariffs, and a minimum number of participants. While we will do everything possible to maintain the listed rates, they are subject to change. If there are significant changes, details and costs will be advised prior to departure.

Terms & Conditions

Complete Terms and Conditions including a Statement of Responsibility will be made available at time of registration, or in advance upon request. A signed "Terms & Conditions, Release from Liability, Assumption of Risk and Binding Arbitration Clause" is required from each applicant prior to participation on the tour.
